

北京久恒软件技术有限公司

BEIJING JOVENT TECHNOLOGIES CO.,LTD.

Software Development

Outsourcing

Consultancy Service

OS

- Windows
- Linux (Debian/Ubuntu/RedHat/ARM)

Language

- C
- C++
- Qt
- MFC
- C#
- Java
- VUE

Fields

- Test and Measurement
- Electronic instruments

Development

- Antenna pattern testing software
- Customized software development
- Data processing and analysis software
- Database application software
- Embedded software
- Geographic information system
- Human-machine interaction software
- Low power DC characteristic analysis software
- Measurement control software
- Signal monitoring and interception software
- Virtual reality technology and 3D modeling display software

Technology stack

- Network: TCP / UDP / Telnet / ICMP / FTP / SNMP
- Instrument interfaces: RS232 / GPIB / LAN / USB / LXI / PXI / VXI
- Data encryption and decryption: DES / MD5 / RSA / SHA / AES
- Waveform curve: GDI / GDI+ / OpenGL / DirectX
- Instrument drivers: MMI / SCPI / VXI11 / USB-TMC
- Test Report: Word / Excel / PDF / HTML / XML
- Script: Lua / JavaScript / JSON
- Database: SQLite/Firebird/MySQL/Access/Oracle/SQL Server
- Kernel: Services / Drivers
